WORLD WIDE STERN TUBE SEAL SERVICE & SPARES

We keep your interests first

Complete stern tube seal maintenance concept

We are stern tube seal specialists. 100% Independent from the makers, we offer a complete and tailor-made maintenance concept for oil lubricated stern tube seals. This helps ship owners to achieve immediate and significant cost reduction and increased reliability of their stern tube systems.

Our full package maintenance concept is based on 8 years of field experience and countless vessels serviced. Our full service concept includes:

- Active support during purchasing - and planning process
- Check of maintenance & operating history
- Job-preparation together with customer
- Advise about necessary spare parts
- Supply of our high quality compatible spares (suitable for EAL oils or alternative)
- Excellent availability of experienced service engineers
- Overhaul service world wide
- 1 year warranty on service and spares (if our spares or customers OEM spares are used)
- Independent realistic consulting / aftersales

About

After the start 8 years ago, Dutch based RM Propulsion quickly gained an excellent reputation with renowned Scandinavian ship-owners as a specialist of stern tube seal maintenance and repair. Based on field experience we continuously improved our maintenance concept and developed our own range of spares. For our customers this means further improvement of reliability and availability and immediate cost-savings.

In the next years we will expand the range of our own spares and open additional service stations to provide an even better service to our customers.

Service

- Seal bonding of oil lubricated lip seals
- Accepted by class
- Independent from OEM's
- All common brands & types
- World wide service
- By experienced RM Propulsion service engineers
- Digital work report
- Warranty on spares & service also if OEM spares are used

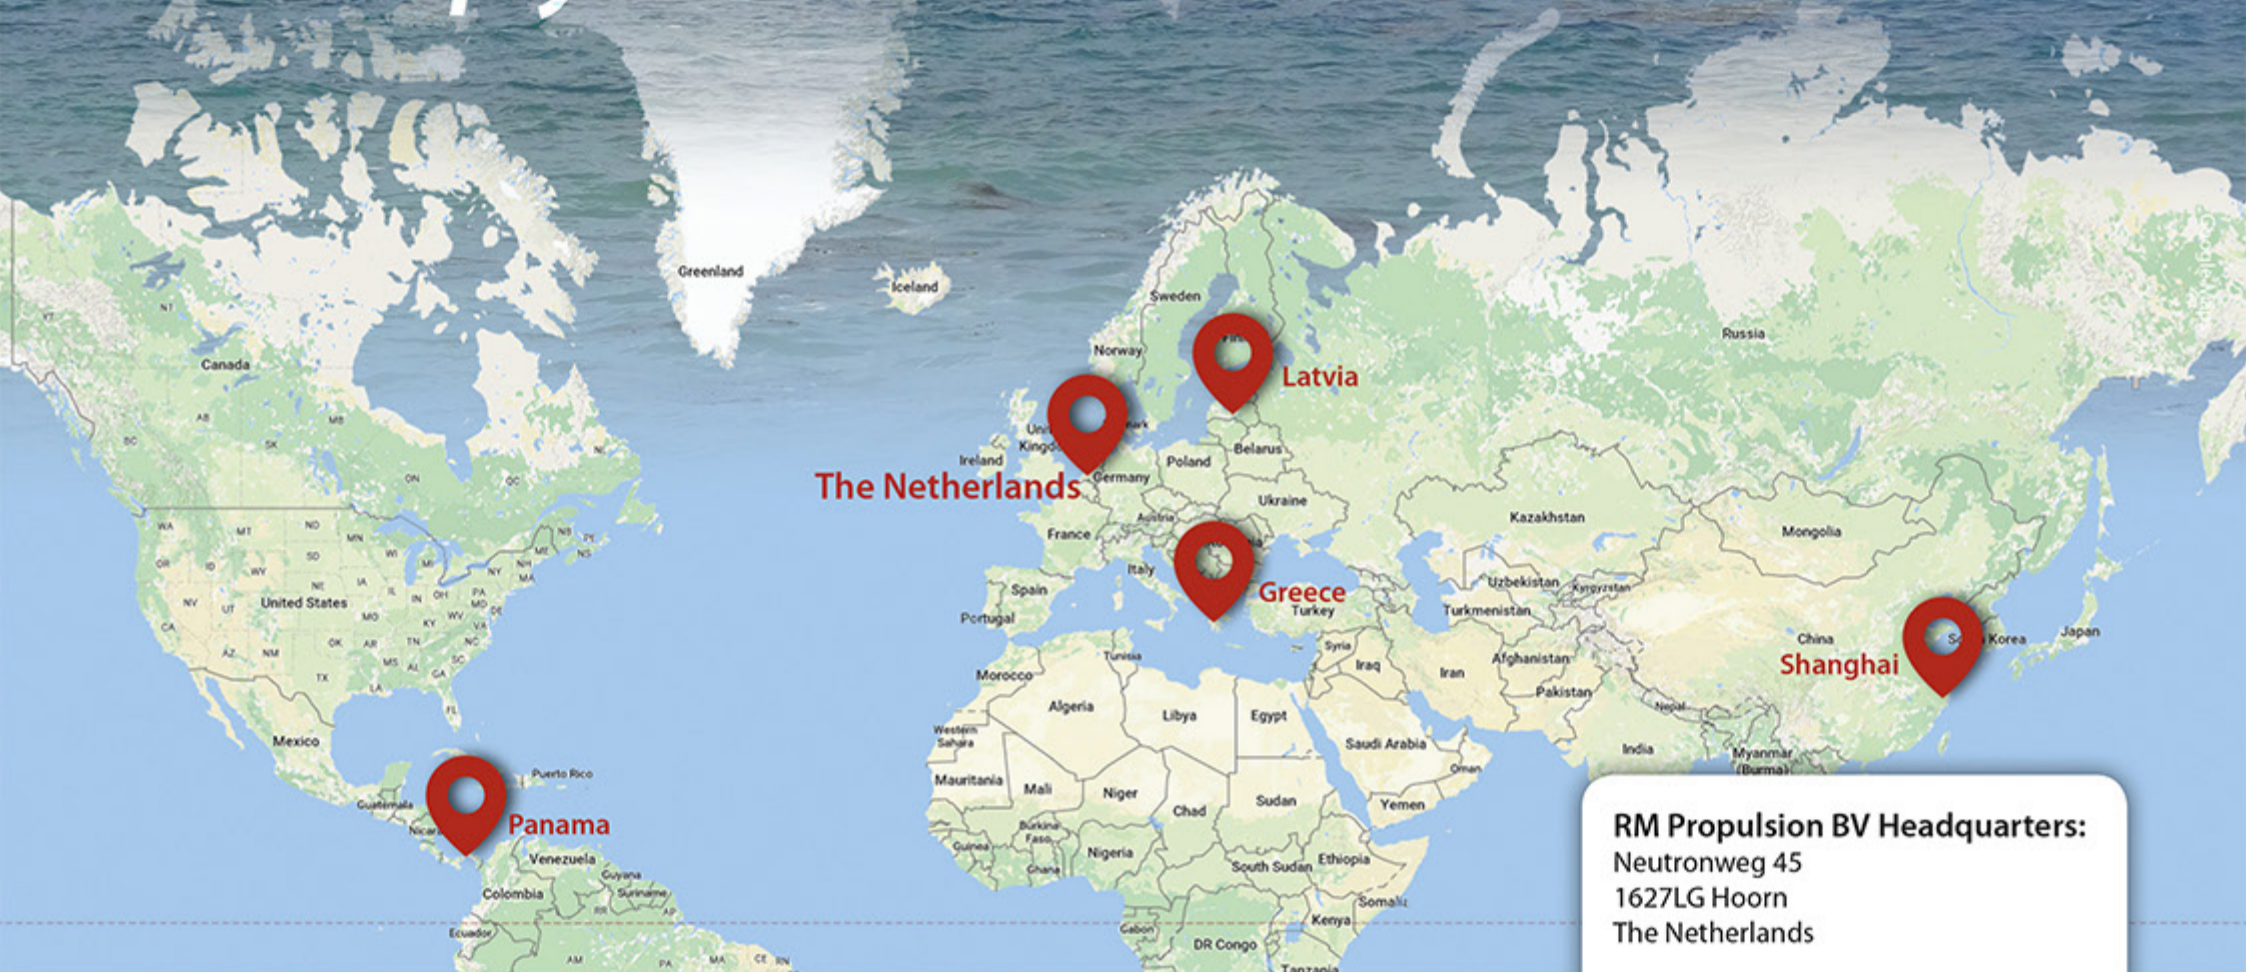

Spare Parts
